

CONTENTS

ENVIRONMENT, WELL-BEING, AND BEHAVIOR

- Comparison of bones of 4 strains of laying hens kept in conventional cages and floor pens
F. G. Silversides, R. Singh, K. M. Cheng, and D. R. Korver1
- Predicting the environmental impacts of chicken systems in the United Kingdom through a life cycle assessment: Broiler production systems
I. Leinonen, A. G. Williams, J. Wiseman, J. Guy, and I. Kyriazakis8
- Predicting the environmental impacts of chicken systems in the United Kingdom through a life cycle assessment: Egg production systems
I. Leinonen, A. G. Williams, J. Wiseman, J. Guy, and I. Kyriazakis26
- Upper lethal temperatures of Northern Bobwhite embryos and the thermal properties of their eggs
K. S. Reyna and W. W. Burggren41
- Effect of feed contamination with aflatoxin B₁ and administration of exogenous corticosterone on Japanese quail biochemical and immunological parameters
F. N. Nazar, A. P. Magnoli, A. M. Dalcero, and R. H. Marin47
- Determination of embryonic temperature profiles and eggshell water vapor conductance constants in incubating Ross × Ross 708 broiler hatching eggs using temperature transponders
R. Pulikanti, E. D. Peebles, W. Zhai, and P. D. Gerard55

GENETICS

- The effects of broiler chicken growth rate on valgus, varus, and tibial dyschondroplasia
M. Y. Shim, A. B. Karnuah, N. B. Anthony, G. M. Pesti, and S. E. Aggrey62

IMMUNOLOGY, HEALTH, AND DISEASE

- Anti-influenza virus activity of green tea by-products in vitro and efficacy against influenza virus infection in chickens
H. J. Lee, Y. N. Lee, H.-N. Youn, D. H. Lee, J. H. Kwak, B. L. Seong, J. B. Lee, S. Y. Park, I. S. Choi, and C. S. Song66
- Effect of n-3 fatty acids on immune function in broiler chickens
H. Al-Khalifa, D. I. Givens, C. Rymer, and P. Yaqoob74
- Live attenuated nephropathogenic infectious bronchitis virus vaccine provides broad cross protection against new variant strains
T.-H. Lim, M.-S. Kim, J.-H. Jang, D.-H. Lee, J.-K. Park, H.-N. Youn, J.-B. Lee, S.-Y. Park, I.-S. Choi, and C.-S. Song89
- Effect of recycled litter on immune cells in the cecal tonsils of chickens
R. Shanmugasundaram, M. S. Lilburn, and R. K. Selvaraj95
- Toll-like receptor 2 type 1 and type 2 polymorphisms in different chicken breeds
W. K. Ruan, Y. H. Wu, J. An, D. F. Cui, H. R. Li, and S. J. Zheng101

Research Note

- Effect of killed whole yeast cell prebiotic supplementation on broiler performance and intestinal immune cell parameters
R. Shanmugasundaram and R. K. Selvaraj107

METABOLISM AND NUTRITION

- Proteomic profile evolution during steatosis development in ducks
M. L. Bax, C. Chambon, N. Marty-Gasset, H. Remignon, X. Fernandez, and C. Molette112

The adaptive transport of folic acid in the intestine of laying hens with increased supplementation of dietary folic acid G. B. Tactacan, J. C. Rodriguez-Lecompte, K. O, and J. D. House	121
--	-----

MOLECULAR, CELLULAR, AND DEVELOPMENTAL BIOLOGY

Isolation, identification, and phylogenetic analysis of reassortant low-pathogenic avian influenza virus H3N1 from Pakistan N. Siddique, K. Naeem, Z. Ahmed, M. A. Abbas, S. Farooq, and S. A. Malik	129
Identification and characterization of microRNA from chicken adipose tissue and skeletal muscle X. G. Wang, J. F. Yu, Y. Zhang, D. Q. Gong, and Z. L. Gu	139

Research Note

The roles of the actin-myosin interaction and proteolysis in tenderization during the aging of chicken muscle S. Li, X. Xu, and G. Zhou	150
--	-----

PHYSIOLOGY, ENDOCRINOLOGY, AND REPRODUCTION

The effect of active immunization against vasoactive intestinal peptide (VIP) and inhibin on reproductive performance of aging White Leghorn roosters N. Avital-Cohen, R. Heiblum, N. Argov, A. Rosenstrauch, Y. Chaiseha, N. Mobarkey, and I. Rozenboim	161
Skin surface temperature of broiler chickens is correlated to body core temperature and is indicative of their thermoregulatory status M. Giloh, D. Shinder, and S. Yahav	171
The relationship of incubational egg weight loss with parthenogenesis in Chinese Painted quail (<i>Coturnix chinensis</i>) J. B. Wells, H. M. Parker, A. S. Kiess, and C. D. McDaniel	181
Production of donor-derived offspring after ovarian transplantation between Muscovy (<i>Cairina moschata</i>) and Pekin (<i>Anas platyrhynchos</i>) ducks Y. Song, K. M. Cheng, M. C. Robertson, and F. G. Silversides	191

Research Note

Heparan sulfate proteoglycans, syndecan-4 and glypican-1, differentially regulate myogenic regulatory transcription factors and paired box 7 expression during turkey satellite cell myogenesis: Implications for muscle growth J. Shin, D. C. McFarland, and S. G. Velleman	201
---	-----

PROCESSING, PRODUCTS, AND FOOD SAFETY

The spoilage of air-packaged broiler meat during storage at normal and fluctuating storage temperatures Q. Q. Zhang, Y. Q. Han, J. X. Cao, X. L. Xu, G. H. Zhou, and W. Y. Zhang	201
The effect of different dietary levels of rapeseed meal on growth performance, carcass traits, and meat quality in turkeys D. Mikulski, J. Jankowski, Z. Zdunczyk, J. Juskiewicz, and B. A. Slominski	211
Aspects of lipid oxidation of meat from free-range broilers consuming a diet containing grasshoppers on alpine steppe of the Tibetan Plateau T. Sun, R. J. Long, Z. Y. Liu, W. R. Ding, and Y. Zhang	221
Effect of <i>Flammulina velutipes</i> on spent-hen breast meat tenderization G. H. Kang, S. H. Kim, J. H. Kim, H. K. Kang, D. W. Kim, P. N. Seong, S. H. Cho, B. Y. Park, and D. H. Kim	231
Effects of diet-induced differences in growth rate on metabolic, histological, and meat-quality properties of 2 muscles in male chickens of 2 distinct broiler breeds J. P. Zhao, G. P. Zhao, R. R. Jiang, M. Q. Zheng, J. L. Chen, R. R. Liu, and J. Wen	231
Big-bird programs: Effect of strain, sex, and debone time on meat quality of broilers V. B. Brewer, V. A. Kuttappan, J. L. Emmert, J.-F. C. Meullenet, and C. M. Owens	241

Review

Phenotypic and genotypic methods for typing *Campylobacter jejuni* and *Campylobacter coli* in poultry
K. N. Eberle and A. S. Kiess 255

PRODUCTION, MODELING, AND EDUCATION

Productive performance and histological features of intestinal mucosa of broiler chickens fed different dietary protein levels
V. Laudadio, L. Passantino, A. Perillo, G. Lopresti, A. Passantino, R. U. Khan,
and V. Tufarelli 265

Erratum

Erratum to “Black cumin seeds, Artemisia leaves (*Artemisia sieberi*), and *Camellia* L. plant extract as phytogetic products in broiler diets and their effects on performance, blood constituents, immunity, and cecal microbial population” (Poult. Sci. 90:2500–2510)
S. Khalaji, M. Zaghari, K. H. Hatami, S. Hedari-Dastjerdi, L. Lotfi,
and H. Nazarian 271
