

CONTENTS

ANIMAL WELL-BEING AND BEHAVIOR

Genetic selection to increase bone strength affects prevalence of keel bone damage and egg parameters in commercially housed laying hens

A. Stratmann, E. K. F. Fröhlich, S. G. Gebhardt-Henrich,
A. Harlander-Matauschek, H. Würbel, and M. J. Toscano 975

The impact of graded levels of daylength on turkey productivity to eighteen weeks of age

C. Vermette, K. Schwean-Lardner, S. Gomis, T. G. Crowe, and H. L. Classen 985

GENETICS AND GENOMICS

History of the Athens Canadian Random Bred and the Athens Random Bred control populations

K. E. Collins, H. L. Marks, S. E. Aggrey, M. P. Lacy, and J. L. Wilson 997

IMMUNOLOGY, HEALTH, AND DISEASE

The gut-brain axis interactions during heat stress and avian necrotic enteritis

Atilio Sersun Calefi, Juliana Garcia da Silva Fonseca, Daniel Wagner Hamada Cohn,
Bruno Takashi Bueno Honda, Carolina Costola-de-Souza, Lucila Emiko Tsugiyama,
Wanderley Moreno Quinteiro-Filho, Antonio J. Piantino Ferreira, and
João Palermo-Neto 1005

Experimental infection of SPF and Korean native chickens with highly pathogenic avian influenza virus (H5N8)

Eun-Kyoung Lee, Byung-Min Song, Hyun-Mi Kang, Sang-Hee Woo,
Gyeong-Beom Heo, Suk Chan Jung, Yong Ho Park, Youn-Jeong Lee,
and Jae-Hong Kim 1015

Efficacy of HVT-IBD vector vaccine compared to attenuated live vaccine using in-ovo vaccination against a Korean very virulent IBDV in commercial broiler chickens

J.-H. Roh, M. Kang, B. Wei, R.-H. Yoon, H.-S. Seo, J.-Y. Bahng,
J.-T. Kwon, S.-Y. Cha, and H.-K. Jang 1020

MANAGEMENT AND PRODUCTION

Effects of floor eggs on hatchability and later life performance in broiler chickens

H. van den Brand, M. P. Sosef, A. Lourens, and J. van Harn 1025

The excretion and environmental effects of amoxicillin, ciprofloxacin, and doxycycline residues in layer chicken manure

Ping-cai Peng, Yan Wang, Long-yong Liu, Yong-de Zou, Xin-di Liao,
Juan-boo Liang, and Yin-bao Wu 1033

The effect of northern fowl mite (*Ornithonyssus sylviarum*) infestation on hen physiology, physical condition, and egg quality

Giuseppe Vezzoli, Annie J. King, and Joy A. Mench 1042

Estimating local, organic, and other price premiums of shell eggs in Hawaii

Matthew K. Loke, Xun Xu, and PingSun Leung 1050

METABOLISM AND NUTRITION

Regeneration of the intestinal mucosa in *Eimeria* and *E. Coli* challenged broilers supplemented with amino acids

E. T. Gottardo, K. Prokoski, D. Horn, A. D. Viott, T. C. Santos,
and J. I. M. Fernandes 1056

Does release of encapsulated nutrients have an important role in the efficacy of xylanase in broilers? A. Khadem, M. Lourenço, E. Delezie, L. Maertens, A. Goderis, R. Mombaerts, M. Höfte, V. Eeckhaut, F. Van Immerseel, and G. P. J. Janssens.....	1066
Effects of calcium feeding strategy on true ileal phosphorus digestibility and true phosphorus retention determined with growing broilers K. R. Perryman, H. V. Masey O'Neill, M. R. Bedford, and W. A. Dozier, III.....	1077
Lycopene activates antioxidant enzymes and nuclear transcription factor systems in heat-stressed broilers K. Sahin, C. Orhan, M. Tuzcu, N. Sahin, A. Hayirli, S. Bilgili, and O. Kucuk.....	1088
Chromium propionate in broilers: effect on insulin sensitivity M. A. Brooks, J. L. Grimes, K. E. Lloyd, K. Krafka, A. Lamptey, and J. W. Spears.....	1096

MICROBIOLOGY AND FOOD SAFETY

On-farm <i>Campylobacter</i> and <i>Escherichia coli</i> in commercial broiler chickens: Re-used bedding does not influence <i>Campylobacter</i> emergence and levels across sequential farming cycles H. N. Chinivasagam, W. Estella, H. Rodrigues, D. G. Mayer, C. Weyand, T. Tran, A. Onysk, and I. Diallo	1105
Influence of commercial laying hen housing systems on the incidence and identification of <i>Salmonella</i> and <i>Campylobacter</i> D. R. Jones, J. Guard, R. K. Gast, R. J. Buhr, P. J. Fedorka-Cray, Z. Abdo, J. R. Plumblee, D. V. Bourassa, N. A. Cox, L. L. Rigsby, C. I. Robison, P. Regmi, and D. M. Karcher.....	1116
The efficacy of a commercial competitive exclusion product on <i>Campylobacter</i> colonization in broiler chickens in a 5-week pilot-scale study C. Schneitz and M. Hakkinen.....	1125

MOLECULAR AND CELLULAR BIOLOGY

GRP78 is required for cell proliferation and protection from apoptosis in chicken embryo fibroblast cells M. Jeon, H. Choi, S. I. Lee, J. S. Kim, M. Park, K. Kim, S. Lee, and S. J. Byun.....	1129
Identification and comparative proteomic study of quail and duck egg white protein using 2-dimensional gel electrophoresis and matrix-assisted laser desorption/ionization time-of-flight tandem mass spectrometry analysis S. Hu, N. Qiu, Y. Liu, H. Zhao, D. Gao, R. Song, and M. Ma.....	1137
MiR-122 targets the vanin 1 gene to regulate its expression in chickens Yanyan Li, Xingguo Wang, Jianfeng Yu, Fang Shao, Yanping Zhang, Xiangyun Lu, and Zhiliang Gu.....	1145
Temporal embryonic transcription of chicken fast skeletal myosin heavy chain isoforms in the single comb white leghorn J. Griffin, N. St-Pierre, M. S. Lilburn, and M. Wick.....	1151

PHYSIOLOGY AND REPRODUCTION

Goose broodiness is involved in granulosa cell autophagy and homeostatic imbalance of follicular hormones Jing Yu, Yaping Lou, Ke He, Songbai Yang, Wensai Yu, Lu Han, and Ayong Zhao.....	1156
Observations of turkey eggs stored up to 27 days and incubated for 8 days: embryo developmental stage and weight differences and the differentiation of fertilized from unfertilized germinal discs M. R. Bakst, G. R. Welch, and M. J. Camp.....	1165
Early intestinal development and mucin transcription in the young poult with probiotic and mannan oligosaccharide prebiotic supplementation S. L. Hutsko, K. Meizlich, M. Wick, and M. S. Lilburn.....	1173
Triple-yolked eggs in domestic ducks: a rare occurrence Attila Salamon and John P. Kent.....	1179

PROCESSING AND PRODUCTS

Fatty acid profile, total cholesterol, vitamin content, and TBARS value of turkey breast muscle cured with the addition of lycopene N. Skiepkó, I. Chwastowska-Siwiecka, J. Kondratowicz, and D. Mikulski	1182
---	------

Comparison of eggshell surface sanitization technologies and impacts on consumer acceptability Morouj N. Al-Ajeeli, T. Matthew Taylor, Christine Z. Alvarado, and Craig D. Coufal.....	1191
Effect of chicken skin on the quality characteristics of semi-dried restructured jerky Yun-Sang Choi, Doo-Jeong Han, Ji-Hun Choi, Ko-Eun Hwang, Dong-Heon Song, Hyun-Wook Kim, Young-Boong Kim, and Cheon-Jei Kim.....	1198
Effect of electrical water bath stunning on physical reflexes of broilers: evaluation of stunning efficacy under field conditions M. Girasole, R. Marrone, A. Anastasio, Antonio Chianese, R. Mercogliano, and M. L. Cortesi.....	1205
Physicochemical composition and sensory quality evaluation of capon and rooster meat André Amorim, Sandra Rodrigues, Etelvina Pereira, and Alfredo Teixeira.....	1211

ASSOCIATION NOTES

Nunc Dimittis.....	1220
--------------------	------

ERRATUM

Association between ACTA1 candidate gene and performance, organs and carcass traits in broilers G. C. Venturini, N. B. Stafuzza, D. F. Cardoso, F. Baldi, M. C. Ledur, J. O. Peixoto, L. El Faro, and D. P. Munari.....	1221
---	------
